

1. Title: Capital letters sufficiently clear; conspicuous and complete, without abbreviations and superfluous words, written in English. It is recommended to begin with the term that represents the most important aspect, with other terms in decreasing of importance.

NAME(S) OF THE AUTHOR(S) (without abbreviations) on the right side with one name beneath the former. The manuscript must have a maximum of 6 (six) authors. Example:

INSERT THE TITLE HERE

Author 1

Federal University of Lavras (UFLA), Engineering Department, Campus, P. O. Box 3037, ZIP Code 37,200-000, Lavras, MG, Brazil.

Author 2

Federal University of Lavras (UFLA), Engineering Department, Campus, P. O. Box 3037, ZIP Code 37,200-000, Lavras, MG, Brazil.

Corresponding author: author@deg.ufla.br

Author 3

Federal University of Lavras (UFLA), Engineering Department, Campus, P. O. Box 3037, ZIP Code 37,200-000, Lavras, MG, Brazil.

2. Abstract: The Abstract must be written continuously in one paragraph and it must not exceed 250 words. At least, it must contain a brief introduction, objective(s) and main results. Example:

Abstract: Insert text here.

3. Index terms: Include 3 to 5 index terms that express the content of the paper and different from those used in the title and separated by commas. Example:

Index terms: Insert, three to five, index terms.

Please, include submission information after keywords:

Received: June 5, 2016 - Accepted: December 14, 2017

4. Introduction: Including literature review and objectives. Example:

INTRODUCTION

When two authors of the same work are cited they must be separated by "and", if not included in the sentence, must be separated by ";". Other cites in the same text, must present the authors in an alphabetic order of their last names, followed by date and separated by ";": Alves (2010); Silva Júnior (2011); Oliveira (2012); Ferreira (2013). In the end of the paragraph or phrases, the cites must be: (Alves, 2010; Silva Júnior, 2011; Oliveira, 2012; Ferreira, 2013).

5. Material and Methods: Include the used methodology. Example:

MATERIAL AND METHODS

Insert text here. Symbols and Chemical Formula must be presented using a word processor that allows editing for Adobe InDesign CS6 (ex: MathType), maintaining their original layout. Figures may be in color or black and white, clear and with contrast, inserted in the text after their citation and also in a separate file, saved in extension "TIFF" or "JPEG" with resolution of 300 dpi. They must be described using Times New Roman font, size 10, without bold, without a text box and arranged in order. Press copies will only publish figures in black and white. TABLES: Must contain a clear and concise title, being explanatory. Tables should not contain vertical lines. Horizontal lines must separate title from the presented data and at the

bottom of the table. Tables should be made on Microsoft Word (Table - Insert Table), with each value inserted in a single cell, centrally located.

6. Results and Discussion: Usually authors insert Figures and Tables along the text. Example:

RESULTS AND DISCUSSION

Insert text here (Table 1).

Table 1: Insert text here.

Insert text here (Figure 1).

Figure 1: Insert text here.

7. Conclusions: Please, see the example:

CONCLUSIONS

Insert text here.

8. Acknowledgments: Optional, normally development agencies. Example

ACKNOWLEDGMENTS

Insert text here.

9. References: Please, see the examples:

JOURNAL PAPER:

- Up to three authors:

DRUMOND, T. P.; MACIEL, D. N. GRECO, M. Dynamic analysis of a flare tower in off-shore platforms. **Theoretical and Applied Engineering**, 1(1):20-30, 2017.

-More than three authors:

ARANTES, T. B. et al. Effectiveness of bfast algorithm to characterize time series of dense forest, agriculture and pasture in the amazon region. **Theoretical and Applied Engineering**, 1(1):10-19, 2017.

BOOK

a) Complete book:

SILVA, F. M.; ALVES, M. C. **Cafeicultura de precisão**. 1.ed. Lavras: Editora UFLA, 2013. 227p.

b) Book chapter with specific authors:

ALVES, M. C.; SILVA, F. M. ; OLIVEIRA, M. S. **Erros de medição em topografia**. In: ALVES, M. C.; SILVA, F. M. Geomática para levantamento de ambientes: base para aplicações em topografia, georreferenciamento e agricultura de precisão. 1ed. Lavras: Editora UFLA, 2016. v.1, p.53-80.

DISSERTATION AND THESIS:

Must not be cited.

ABSTRACTS PUBLISHED IN CONGRESSES OR OTHER EVENTS:

Must not be cited.

Example:
